ABOUT NEPAL

Nepal is an enchanting kingdom, nestled in the Himalayas between China and India. For a small territory, the country boasts an uncommonly diverse terrain, including eight of the world's top 10 highest mountains. Nepali folklore is often illustrated in dance and music and the people are open to sharing their traditions. Although tourism is steadily increasing, Nepal's remote location has kept the culture widely unaffected from outside influences..

Hindu and Buddhist traditions in Nepal go back more than two millennia. In Lumbini, Buddha was born, and Pashupatinath temple, Kathmandu, is an old and famous Shiva temple of Hindus. Nepal has several other temples and Buddhist monasteries, as well as places of worship of other religious groups. Traditionally, Nepalese philosophical thoughts are ingrained with the Hindu and Buddhist philosophical ethos and traditions, which include elements of Kashmir Shaivism, Nyingma school of Tibetan Buddhism, works of Karmacharyas of Bhaktapur, and tantric traditions. Tantric traditions are deep rooted in Nepal, including the practice of animal sacrifices. Five types of animals, always male, are considered acceptable for sacrifice: water buffalo, goats, sheep, chickens, and ducks. Cows are very sacred animals and are never considered acceptable for sacrifice.

Nepal Sumpada Sangha (Nepal Heritage Society) has compiled an inventory of 1,262 significant architectural and archeological sites in Nepal outside Kathmandu Valley.

Nepali, written in Devanagari script, is the official national language and serves as lingua franca among Nepalese ethno-linguistic groups. Maithili language that was originated in Mithila region of Nepal is the de facto official language of Nepal and Madhesh as a whole. Maithili is spoken in Nepal as a second language. Extinct languages of Nepal include Kusunda, Madhesiya and Waling.
